

Summer holidays

If you have time during the holidays you may like to help your child to do some of these activities.

Try some or all of these activities during the holidays! Use the back of the sheet to record your answers.

Name values

Find out how much names are worth using 1p and 10p coins.

- Vowels (a, e, i, o, u) are worth 10p each.
- Consonants (all the other letters) are worth 1p each.
- Write your name and put a 10p or 1p coin below each letter.
- Add the 10p coins then the 1p coins.
- What is the value of your first name?
- What is the value of your last name?
- What are the values of the names of everyone in your family?
- Arrange the values in order from smallest to largest.
- If you have time change the value of consonants to 2p and work out the new values of all the names.

Shopping

You will need an old shopping receipt.

- Find ten prices less than £3.
- Make each price with the fewest coins possible.
- Find ten prices less than £1.
- How much change would you get from £1 for each item?

Spending money

- For one day in the holidays, keep a record of the places you visit and the things you do.
- Write down the price for everything (entry ticket, ice-cream, lunch, ...).
- What was the total cost for just you?
- What was the total cost for your family?
- Choose one entry ticket. How many different ways could you pay for the ticket?
